

End of Year EXPERIENCES

Staff and students made the most of the last days of school during the 2022-2023 year. Highlights included Field Day activities, graduation, and a PBIS celebration.

Field Day at Starlight School was a splashing good time! Staff created amazing Field Day activities for students including a car wash, water balloons, and water sensory bins. Students splashed, smiled, and soaked in the sunshine!

A celebration ceremony was held for preschool students to celebrate all their accomplishments. Each student received an award from their teachers and a bucket of summer goodies.

Stevie completed his education at Starlight and his family was there to cheer him on. Congrats Stevie!

Students also enjoyed pizza and Kona Ice in recognition for all of their SUPER PBIS work during the school year.

We had our Annual Review for Step Up to Quality as well as our License review through the Ohio Department of Education. Both went really well and we continue to maintain our exceptional 5 Star SUTQ Rating!

new...

Maintenance staff has been working hard to install a new shade structure in the playground. So students can stay cool when they return this fall. We have also installed a Little Library at the front entrance. Community members are invited to leave books to share.
